SELCUK UNIVERSITY

   ProfDrMetinAksoy

Selçuk University, established in 1975 as the first university in the region, has always aimed to be a pioneer in its nearly half-century of educational activities. Today, with its 23 faculties, 7 graduate schools, 5 colleges, 23 vocational schools, conservatory of fine arts, 53 research and application centers, and more than 70.000 students and staff, our university has produced 5 more universities within its structure. Our rich academic staff and strong scientific heritage have had a transformative impact on our city; as Selçuk University has played a major role in Konya's development and modernization. Today as the city of Konya, with its five universities has become Türkiye's 4th largest student city after Istanbul, Ankara, and Izmir, Selçuk University stands as the driving force of this great ascent.

Our Alaeddin Keykubat Campus, is a world-class campus spanning over 11 million square meters, with over 57% of its area being dedicated to lush green spaces. It features top-notch facilities such as an amphitheater, a shopping center, social and cultural centers, a hospital, and dormitories, as well as a tramway that runs through the campus. Our campus provides an exceptional university experience, with an atmosphere that is conducive to learning, personal growth, and development. As a testament to our commitment to excellence, our university has received the flag award at the University Accessibility Awards and has been named one of the pilot universities in the Sustainable and Climate-Friendly Campus Project. Our academic quality has also been certified by the Turkish Higher Education Quality Council with an accreditation certificate. Additionally, we are proud to announce that our university has been ranked as Türkiye's fourth-best institution for quality education by the leading international higher education evaluation organization, Times Higher Education. Furthermore, we are thrilled to share that our university has been named the world's 431st greenest campus in the UI GreenMetric World University Rankings 2022, which assesses the sustainability performance of higher education institutions worldwide.

As we approach the milestone of our university's 50th anniversary, we remain committed to a culture of continual improvement, collaboration with stakeholders, and a leadership philosophy that values respect and integrity. I warmly extend an invitation to you to join us at Selçuk University and become a part of the ongoing ascent of the Selçuk Eagle.

STANDING OUT WITH OUR CONCEPTION OF EDUCATION, ROOTED IN TRADITION

- As one of the most longstanding universities in our country, Selçuk University is an internationally recognized and respected entrepreneurial world university since its foundation in 1975.
- Selçuk University is Konya's first, largest, and most well-equipped institution of higher education, with a highly qualified and experienced academic staff and abundant opportunities for learning.
- Through our student exchange programs, our students can broaden their horizons and gain valuable international experience at universities across Europe and beyond.

- Our Simulation Education Center, which is the first of its kind among public universities and utilizes augmented reality technology, allows students to benefit from virtual reality in their education.
- At our university, numerous international and national congresses, symposia, conferences, panels, concerts, and theater performances are held with the active participation of student communities.
- Our university has been awarded the Accreditation Certificate by the Turkish Higher Education Quality Council (YÖKAK), which confirms its success.

PIONEERING NATIONAL AND INTERNATIONAL SUCCESS

- Selçuk University ranked among the top 4 universities in Türkiye for quality education according to the 2022 Impact Rankings published by Times Higher Education (THE), one of the world's leading university ranking organizations.
- According to the "UI GreenMetric World University Rankings 2022," which evaluates higher education institutions in the areas of sustainability, energy efficiency, harmony with nature, and environmental awareness, our university ranked as the world's 431st greenest campus.
- According to the "EduRank 2022" rankings, one of the world's leading university rating organizations, our university was among the top 15 universities in Türkiye in terms of "scientific publications and citations." Based on the same organization's data for Türkiye, our university ranked third in machine learning, seventh in archaeology and artificial intelligence, and eighth in environmental sciences and interior architecture.
- Our university, with its technical infrastructure and scientific projects, provides its students with a bright future opportunity. In the last two years, our university has achieved great success at TEKNOFEST, offering its students the opportunity to showcase their talents. In 2021, our university team won three awards at the competition held in Istanbul, and in TEKNOFEST 2022, they concluded the event with ten awards.
- In research projects, Selçuk University ranked in the top 15 among 182 universities in Türkiye with 67 projects and in the top 19 among 189 universities in Türkiye with 63 projects in the first and second halves of 2022, respectively, in the application results of the TÜBİTAK "2209-A University Students Research Projects Support Program".
- Our university's Faculty of Communication values practical training alongside theoretical education, offering various units such as UN TV (the first and only 24-hour university television channel in our country), Radio University, Advertising Workshop, Selçuk Communication Newspaper, Suha ARIN Short Film Workshop, Photography Laboratory, and Public Opinion Research Unit that meet the needs and requirements of the modern industry. This commitment to practical education has paid off, as our faculty received the highest number of awards in TRT's 7th Future Communicators Competition in 2021, once again affirming its success.
- 8 scientists from our university have been listed among the "World's Most Influential Scientists" based on research conducted at Stanford University.

- Our Good Clinical Practices Research Center holds the distinction of being the first in Türkiye with its Third-Level Intensive Care Unit.
- Our Faculty of Medicine is home to the 2nd Genetic and Cell-Based Therapy Application and Research Center in Türkiye. This center specializes in the diagnosis and treatment of genetic diseases and also conducts research on cutting-edge approaches such as "CRISPR" and "mRNA" based methods.
- Our state-of-the-art Experimental Medicine Research and Application Center operates in strict adherence to scientific and ethical principles. It conducts extensive research in fields like cancer, diabetes, pharmaceuticals, and food, providing valuable contributions to the world of science.
- The Youth Valley Coordinatorship at our university is actively engaged in implementing high-impact programs and projects to accomplish the objectives of our nation's National Technology Initiative.
- Our Advanced Technology Research and Application Center (İLTEK) operates with the mission of creating a working environment that consolidates project activities supported by the European Union, TÜBİTAK (The Scientific and Technological Research Council of Türkiye), and universities' scientific research projects. As a collaboration between the Technopark and our university, İLTEK aims to enhance our university's potential in national and international projects, meet the analysis needs of private and public institutions in their research, product development, and production stages, and provide full-time internship opportunities for our associate and undergraduate students to enhance their personal development.
- Konya Technopark and Selcuk Technology Transfer Office, established within our university, are dedicated to fostering university-industry collaboration, intellectual and industrial property rights, entrepreneurship, and company formation. They play a pivotal role in contributing to the national and international innovation and R&D ecosystem. As a result, they have emerged as the thriving hub for research, development, and innovation in the region.
- Our University, as the recipient of 9 Awards from the 2022 Accessible University Awards given by Türkiye's Council of Higher Education (CoHE), is committed to creating an accessible educational environment and enhancing our students' participation in social and cultural activities.
- Our Huğlu Vocational School is an exemplary institution that conducts important work in meeting the needs related to defense and security technologies for our national defense industry. It has reached a level where it can manufacture all components of a rifle, contributing to the reduction of our country's dependence on foreign sources.

RESPECTFUL TO HUMAN VALUES, RESPONSIVE TO SOCIAL PROJECTS

- The Faculty of Agriculture at our university provides a valuable service to farmers across the country, including Konya, through the Agricultural Consultation Hotline, "Alo Ziraat". This initiative connects farmers with experienced academicians who offer professional support and guidance in their respective fields.
- Our university has constructed the "Furkan Kocaman Erasmus Guest House" to cater to the accommodation needs of international students participating in various exchange and cooperation programs, especially ERASMUS+. This guest house offers a modern and comfortable environment for their stay. It is the first and only of its kind in Türkiye.
- The Cerebral Palsy Unit at our university's Faculty of Medicine Hospital is the first of its kind in Türkiye, under university hospital auspices. With a capacity to cater to 250 patients at the same time, our center provides comprehensive care and support for individuals with cerebral palsy.

- Our Faculty of Veterinary Medicine's Small Animal Hospital, which is the largest in Türkiye, offers comprehensive examination and treatment services for cats, dogs, and exotic animals. In 2022, the hospital achieved an impressive milestone by attending to over 20.000 patients, placing it among the country's leading animal hospitals in terms of both the number and diversity of cases handled.
- Located within our university campus, Meliha Ercan Patient Guest House offers accommodation services to individuals who travel from other cities or districts to receive healthcare services at our Faculty of Medicine Hospital. It aims to provide lodging facilities for those in need.
- The Faculty of Dentistry at our university fulfills an important social responsibility through the establishment of the Accessible Oral and Dental Health Unit at Konya Beyhekim Public Hospital.

PRIORITY AREAS OF OUR UNIVERSITY

- Nano Technology Research
- Device Physics and Semiconductor Technology
- Energy and Renewable Energy Sources
- Machinery
- Biotechnology
- Material Technologies
- Food Science and Technology
- Biotechnological Medicine
- Medicine

OUR VALUES

- Entrepreneurial
- Participatory
- Innovative
- Competitive
- Quality-Focused
- Student-Centered
- Socially Responsible
- Committed to Ethical Principles
- Socially and Environmentally Responsible

OUR PROGRAMS

- 23 Faculties
- 7 Graduate Schools
- 5 Vocational Schools
- 23 Vocational Colleges
- A Conservatory of Fine Arts
- 53 Research and Application Centers
- 192 Undergraduate Programs
- 192 Associate Degree Programs
- 180 Thesis Track Master's Programs
- 27 Non-Thesis Track Master's Programs
- 114 Ph.D. Programs
- 879 Main Fields of Study
- 35 Double Major Programs
- 39 Minor Programs
- 20 Foreign Language Education Programs

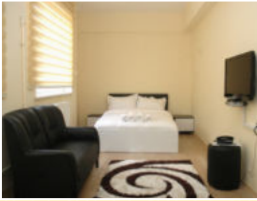

CAMPUS LIFE

- A lively, peaceful and safe campus
- Easy access to the campus by public transport such as tram and minibus
- Free tram ring service within the campus

- Central cafeteria providing affordable and healthy meals
- Shopping center, various cafeterias and restaurants offering reasonably priced food and drinks
- Central library open 24/7
- Unlimited and free Wi-Fi connection available throughout the campus
- Various sports facilities including an Olympic-sized swimming pool and indoor/outdoor sports facilities
- Post office and bank ATMs located at the campus center
- Cultural centers equipped with modern and multi-purpose halls
- University hospital providing healthcare services, on the campus
- Numerous national and international congresses, symposia, conferences, panels, theatre, and concerts held at the campus
- 187 student societies providing opportunities for students to engage in various activities and events
- University and other public student dormitories available within and around the campus.

ACCOMMODATION (DORMITORIES)

- Atatürk Women's Student Dormitory
- Atatürk Men's Student Dormitory
- Konya Şemsi Tebrizi KYK Women's Student Dormitory
- Konya Cumhuriyet KYK Women's Student Dormitory
- Alaaddin KYK Men's Student Dormitory
- Furkan Kocaman Erasmus Guest House

DINING AND HEALTH SERVICES

- Central Cafeteria
- Kutalmışođlu Süleyman Şah Social Facilities
- Keykubad Grand Mansion Cafeteria
- Gökkuşaođı Shopping Mall
- University Hospital
- Counseling and Guidance Research and Application Center

SOCIAL AND CULTURAL FACILITIES

- Open Amphitheater
- Sultan Alparslan Cultural Center (SAKM)
- Central Cafeteria
- Kutalmışođlu Süleyman Şah Social Facilities
- July 15th Stadium
- May 19th Indoor Sports Hall
- 75th Year Sports Hall
- Beyşehir Anamas Guesthouse
- Equestrian Social Facilities
- Çumra Apa Social Facilities
- Furkan Kocaman Erasmus Guesthouse
- Meliha Ercan Patient Guesthouse
- Selcuk University Guesthouse
- Keykubad Grand Mansion
- Olympic Swimming Pool
- Open Tennis Courts

INTERNATIONAL EDUCATION AND EXCHANGE PROGRAMS

- **Erasmus+ Program**

Selcuk University has 759 program-specific agreements and 161 university-specific agreements with European Union countries under the Erasmus+ Program. In addition, the university has 88 program-specific and 2 university-specific agreements with non-European Union countries.

- **Erasmus+ Internship Mobility Program**

By participating in the Erasmus+ Internship Mobility Program, our students can obtain practical work experience in their area of study by completing internships in institutions abroad.

- **Mevlana Exchange Program**

Within the scope of this program, our university has 40 universities with which it has ongoing agreements and 8 universities with which the renewal process of the protocol is underway.

- **Farabi Exchange Program**

Enables students and faculty members to continue their education and teaching activities in a higher education institution outside their own institution for one or two semesters.

- **European Solidarity Corps**

European Solidarity Corps is a European Union initiative that creates opportunities for young people to volunteer, work or engage in networking activities in projects that benefit the society, both domestically and abroad.

- **Selcuk University Entrance Examination for Foreign Students (SÜYÖS)**

It is an exam that can be taken by international students (except for those who completed their entire secondary education in a foreign country, including North Cyprus, and have Turkish citizenship) who want to study at our university in associate's and undergraduate degree programs.

INTELLECTUAL GROWTH

- **Distance Education Application and Research Center (UZEM)**

UZEM provides education services of international standards using the latest distance education methods and technologies, contributing to the personal improvement of individuals regardless of time and place.

- **Double Major / Minor**

Students who meet the admission requirements for double major and minor programs may pursue a double major or minor in another undergraduate program at our university.

- **Selcuk University Continuing Education Application and Research Center (SELÇUKSEM)**

Acting on the principle of lifelong learning, SELÇUKSEM strives to provide quality, efficient, and reliable education solutions to meet the social, cultural, economic, and health-related needs of society. Its aim is to promote our university both nationally and internationally.

- **Scholarships**

Our students have the right to receive scholarships or loans from the Directorate General of Student Loans and Dormitories, based on the criteria set by the institution.
